Education for Electronics

ABOUT ME

Hey there! I'm a friendly and enthusiastic junior developer with a passion for web development. I love learning new things and working with teams to create awesome projects.

My skills include HTML, CSS, JavaScript, jQuery, Bootstrap, C#, MS SQL, and ASP.NET MVC. I'm always eager to grow and contribute, and I'm excited about the opportunities that lie ahead in the world of coding. Let's connect and build something amazing together!

For contact you can find me on Viber, LinkedIn, E-Mail, Discord or Instagram

HOBBIES

GAMING

I enjoy playing video games, both on PC and a few mobile games. However, most of my gaming time is spent on PC. I strongly believe that rules are made to be broken, and I occasionally experiment with cheats to explore new possibilities within games. Nevertheless, my primary focus remains on utilizing gaming as a fun and innovative way to learn coding.

BIKES

During my free time, I enjoy going out and riding my bike. Lately, I've been particularly interested in motorcycles and am planning to get one as soon as possible, so I can experience even more freedom.

BORING DAYS

On boring days, I enjoy spending my time watching movies and series, including trailers, action films, and sometimes even cartoons (haha). Feel free to ask for a movie recommendation!
