ABOUT ME

Hey there! I'm a friendly and enthusiastic junior developer with a passion for web development. I love learning new things and working with teams to create awesome projects.

My skills include HTML, CSS, JavaScript, jQuery, Bootstrap, C#, Angular, MS SQL, ASP.NET Core Web API, and ASP.NET MVC. I'm always eager to grow and contribute, and I'm excited about the opportunities that lie ahead in the world of coding. Let's connect and build something amazing together!

For contact you can find me on Viber, LinkedIn, E-Mail, Discord or Instagram

HOBBIES

GAMING

Gaming forever, whether it's PC or mobile games, just as long as it's interesting, but a larger portion of my time is spent on PC gaming. It's fun, making new friends online, communication and funny moments :D
On the other side that's how i started with programming.

BIKES

In my free time, on the opposite side of gaming, I enjoy cycling, walking, exploring, taking photos, with the possibility of reaching a motorcycle, on that topic, I'm the biggest fan.

BORING DAYS

On boring days, I enjoy spending my time watching movies and series, including trailers, action films, and sometimes even cartoons (haha).
Feel free to ask for a movie recommendation!
